*WideTEK® 25, currently the only wide format flatbed color scanner on the market for professional applications, compact enough for your desktop.
Professional quality, affordable investment*

Walk up scanning, state of the art LED illumination WideTEK® 25 delivers optimal scan results

WideTEK® 25 is extremely fast and delivers high resolution color, black and white or grayscale images in jpeg, tiff, pdf and most other standard image output formats. It combines production-ready design and uniquely compact dimensions in a new class of professional but affordable scanners.

WideTEK® 25 can scan nearly anything: from business cards to diagrams in A2 format, books, newspapers, maps, construction drawings, bound documents and more. The scanner needs less than three seconds to scan the largest format of 18.5 x 25 inches in brilliant quality. Its compact size and integrated walk up scanning software make it the ideal solution for reprographics, copy services, press clipping services as well as in universities, libraries, AEC, and government offices.

Operate the scanner either with a standard web browser, the built in touchscreen or a mobile device like an iPad or Android tablet, using our application for mobile devices Scan2Pad®.

Further highlights that make the WideTEK® 25 scanner the right choice for every application:

- Scan2USB – Walk up scanning to any USB device
- Scan2Print – Output to any connected printer
- Scan2Network – Output to any network drive
- Scan2Pad® – Operation via tablet or other mobile device
- Virus resistant Linux OS
- Operating system independent, runs with Windows, Linux, Mac OS, Unix. Ready for Windows® 8
- Network scanning via any web browser, i.e. IE, Safari, Chrome, Firefox
- Remote maintenance and troubleshooting
- Firmware updates via web interface
- Includes 12 month Extended Warranty subscription

Options:

- Hardware and software options for high volume scanning

Scan anything with the WideTEK® 25 and get high quality images at production scanning speeds.

Markets and Applications

WideTEK® 25, a valuable production device for numerous markets.

WideTEK® 25 Markets

- Architecture, Engineering, Construction, CAD
- Copy Services, Reprographics
- Mapping Services, GIS
- Media Control, Press Clipping Services
- Universities, Libraries, Registries

The applications are many and diverse. WideTEK® 25 fits nearly any application where you need wide format and production speeds.

WideTEK® 25 Applications

- Scanning maps, color posters, display graphics, artwork, photographs
- Archiving newspapers, periodicals, catalogs and magazines
- Archiving blueprints and sepias
- Scanning drafts and advertising on paper board, photos, fabrics, tiles
- Bound & stapled documents: contracts, accounting ledgers, handbooks

The Scan2Net® platform is the technological foundation of all WideTEK® and Bookeye® scanners from Image Access. It replaces the proprietary scanner drivers and software that traditional scanners require with the fastest common, nonproprietary inter-device connection available: TCP/IP over Ethernet. With network interface speeds much higher than USB or SCSI, Scan2Net® devices are able to reach unrivaled performance at very low connectivity cost.

Scan2Net® scanners have a Linux based operating system, dedicated to scanner specific imaging and mechanical control tasks, maximizing scanning speeds and performance.

Scan2Net® Advantages

- Linux based computer, fast and virus protected
- Easy integration into existing network structures
- Only a single IP address is required to run the scanner
- Integration and remote access via the Intranet or even the Internet
- Scans directly to SMB, FTP, Email or the Cloud without external PC
- Simple, intuitive operation, Java and HTML based
- Clear menu structure, operation via touchscreen, acoustical feedback
- Multilanguage support, customizable user interface
